

# School of the Coast & Environment

## Seminar Series Spring 2010

All Seminars will be held at 9:30 am in the Dalton Woods Auditorium

**January 22<sup>nd</sup> Dr. Paul Venturelli, DOCS-LSU**

“Maternal quality, recruitment, and the dynamics of exploited fish stocks”

**Dr. Matthew Campbell, DOCS-LSU**

“Using individual responses to evaluate population dynamics: applications in marine fisheries management”

**January 29<sup>th</sup> Royal Gardner, Stetson University College of Law**

“The Ramsar Convention: Wetlands in a Global Context”

**February 5<sup>th</sup> Dr. Kevin Boswell, DOCS-LSU**

“Ecological Insights at the Scale of Action: An Acoustic Approach”

**Dr. Kari Galvan, DOCS-LSU**

“Trophic pathways and basal resource contributions of toxic cyanobacteria to blue crab and catfish fisheries: a combined approach of stable isotopes and cyanotoxin analysis”

**February 19<sup>th</sup> Dr. Michael McDaniel, Center for Energy Studies, LSU**

“Developments in Alternative Energy – With Emphasis on Louisiana”

**February 26<sup>th</sup> Ms. Yvonne Allen, US Army Corps of Engineers, Engineer Research and Development Center**

“Using remote sensing to describe system level land change trends in the Atchafalaya basin and coastal Louisiana”

**March 12<sup>th</sup> Dr. Robert Weisberg, University of South Florida**

“What could have occurred in the Tampa Bay, Florida region had hurricane Ivan made landfall there – a coupled wave and surge model study”

**March 19<sup>th</sup> Dr. James Diaz, LSUHSC, LSU School of Public Health**

“Is Haff Disease Hemlock Poisoning? Human Hemlock Poisoning Following Consumption of Cooked Fish, Crayfish, and Wildfowl”

**March 23<sup>rd</sup> Dr. Markus Huettel, Florida State University**

“The ecological role of sand beds in the shallow shelf”

**April 16<sup>th</sup> Dr. April Hiscox, ENVIS-LSU**

“Quantifying plume meander in the stable boundary layer”

**April 23<sup>rd</sup> Dr. Timothy Cowles, Oregon State University & Ocean Leadership**

“From small-scale planktonic layers to oceanic processes: how ocean observing capabilities lead to new directions for ocean research”

**April 30<sup>th</sup> Dr. Wayne Landis, Western Washington University**

**May 7<sup>th</sup> Dr. John Day, DOCS-LSU**

“Sustainability, Place, and the Mississippi Delta”
